

## 1. Powering up **PlayIt** in the First Time:

Just attached the power adapter, the Power LED (blue Color) will be On and the system will proceed to boot up.

2 change your remote controller to cursor mode

**2 switch the remote controller to cursor mode:**

This mode are for navigation, select, and keyboard input :

**Press the cursor mode will switch the remote to cursor mode input. Then the screen will indicate the remote has entered into cursor mode and cursor will come out from the screen. You are recommended to stay in this mode once finish wifi set up, then switch it back**

## Remote Controller

The system will proceed to boot up to a "Setup Page" which you may click "**Setup WiFi Network**" to proceed to the Network Settings

Proceed to “WiFi Network” by turning WiFi On , choosing the **SSID** of your network and entering **Username/Password** of your WiFi account, then press “Back”  Icon on the **System Tray** or right click the **Button** of your mouse to back up to previous level:

After choosing your SSID, you will be prompted to enter a WEP, WPA or WPA2 password, entering the appropriate password

and press “CONNECT” to proceed or press “Back”  Icon on the **System Tray** or right click the **Button** of your mouse to back up to previous step :

When you are done with **WiFi Network** Setting and back up to previous level, press **“Next”** to proceed:

Press **“Add New Account”** to add your **Google Account**:

The system will prompt you to select which type of account you are adding? Normally you add Google if the device is boot up for the first time:

then you will be prompt whether you want to use an **existing Gmail account** or to **create a new Google account**. Press **NEXT** to continue all steps required by completing the **“Add Account”** process:
